Fiscal Impact Summary

This bill will increase General Fund expenditures by \$49,877 for one time-limited position in FY 2017-18 to coordinate and process the retired educator certificate requests.

Explanation of Fiscal Impact

Signed by Governor on April 4, 2018

State Expenditure

This bill creates a new retired educator certificate for retired members of the South Carolina Retirement System or current or former members of the State Optional Retirement Program, who would have met the eligibility requirements of the South Carolina Retirement System. Eligible retired educators must not currently hold a valid educator certificate and never held a valid South Carolina educator certificate that had been suspended, revoked, or voluntarily surrendered. The new certificate is valid for five years and may be renewed for an additional five years. The State Board of Education shall develop regulations and the Department of Education (department) shall establish guidelines and procedures for implementing these certificates.

The department, based on requests already received, anticipates the need for one time-limited position at a cost of \$49,877 for salary and employer fringe in FY 2017-18 to coordinate and process the retired educator certificate requests. In addition, the new retired educator certificate would require reprogramming of the current electronic teacher certification system to monitor and report on the proposed certificates. The department expects that these additional expenditures will be managed within existing appropriations.
