Explanation of Fiscal Impact

Introduced on March 28, 2019

State Expenditure

This bill prohibits the sale of an energy drink to a minor and provides a civil fine for violations of this provision. An energy drink as defined by the bill as a "beverage that contains a minimum of 71 milligrams of caffeine per 12 fluid ounces and contains methylxanthines, B vitamins, guarana, ginseng, taurine, glucuronolactone or any extracts or variations of these ingredients." The bill makes it unlawful for a person to sell, furnish, give, or distribute an energy drink to a minor under the age of 18 years. Persons who violate this provision must be fined not less than \$50 per violation. These offenses do not constitute a violation of an establishment's beer and wine permit and thus do not provide grounds for the revocation of such permit.
