Fiscal Impact Summary

House Bill 3997 would have a recurring expenditure impact on the General Fund of \$95,000. Federal Funds and Other Funds will not be affected. This expenditure impact does not include expenditures on body-worn cameras for the pilot project. If the South Carolina Law Enforcement Training Council is required to purchase body-worn cameras and data storage capabilities, the expenditure impact will increase.

Explanation of Fiscal Impact

State Expenditure

This bill amends Section 23-3-90 to require that the South Carolina Law Enforcement Training Council conduct a pilot program to develop statewide criteria for use of body-worn cameras by law enforcement officers. At least three cooperating counties and six municipalities varying in population size will participate in the pilot, during which body-worn cameras will be actively used by law enforcement officers. The criteria developed will consider maintenance, storage and retention, use, accessibility, release, and privacy issues. The training council will thereafter provide recommendations for amending relevant state laws to the General Assembly.

South Carolina Law Enforcement Training Council. The agency reports that it would need to hire an additional staff attorney to develop statewide use criteria for body cameras to be worn by law enforcement officers, to evaluate maintenance, retention, use and privacy issues associated

with captured data, to assist with implementation of a pilot program, to draft ensuing regulations and provide assistance with promulgation of such regulations, and to provide recommendations for necessary amendments to relevant statewide laws.

Department of Public Safety. The agency indicates this bill would have no expenditure impact on the General Fund, Federal Funds, or Other Funds.
